

## Student Open Forum

---

**On Thursday, January 27**, the Student Open Forum, which is the final study activity within the EUTOPIA Learning Unit Epistemology of Everyday Life 2021/22, will take place. In the form of short presentations, some of the students will synthesize various theoretical and epistemological approaches, presented earlier through the lectures, workshops and practical classes of the Learning Unit. Furthermore, they will reflect and re-assess their own ethnographic work and anthropological positions in the light of the newly accessed knowledge. The Student Open Forum is scheduled **from 16:00 until 20:00 CET and will take place on Zoom**.
